

The Director of Central Intelligence
Washington, D.C 20505

Critical Intelligence Problems Committee

25 June 1985 DDW-120

## WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--26 June 1985

## CIPC Organizational Activities

- I had a very interesting and productive meeting with MGen Perroots on 24 June. He is a strong supporter of the Intelligence Community and its collective approach to problem solving. MGen Perroots plans to be an active participant on Intelligence Community and CIPC matters. However, his activity on the CIPC will be brief. OFF THE RECORD, he informed me that on Friday, 28 June, he will be named Director, DIA, effective in October 1985.
- The Narcotics Working Group will be meeting on 25 June to coordinate the draft follow-up Narcotics Report. We are hopeful that the Working Group completes its effort soon so we can schedule a CIPC meeting in July to address the follow-up report.
  - Thus far we have received a number of very favorable comments on the draft report.
  - The report indicates that 81 percent of the 59 recommendations contained in the Narcotics Study have been or is in the process of being implemented.

	WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS (26 June 1985) (cont.)
25 <b>X</b> 1	Narcotics Intelligence:
	<ul> <li>George and Paul attended the State/INM Monthly Intelligence Coordination Meeting on 19 June. A number of the regular attendees were not present due to the hostage crisis in Iran. Some of the issues which were discussed included:</li> <li>The DDI expects to complete an Afghan opium production survey soon. It appears the survey will substantiate crop production estimates contained in DEA reports which have been disseminated to the Intelligence Community (these DEA reports are known around town as "greenies" and are developed by CIA-contract personnel at DEA).</li> </ul>

	<ul> <li>On 20 June, George and Paul attended the NIO/Narcotics Warning meeting.         It was attended by some 44 people. The A/NIO commented that the         Director had expressed an interest in knowing who was attending the         monthly meetings. Of substantive concern to the community was the         following:</li> </ul>
	- Since January, there have been some 36 seizures of cocaine shipments of 100 kilos or more coming into the United States. These are extremely sizable seizures and are a mark, not only of the interdiction success, but of the high-volume of cocaine apparently now being smuggled into the US.

25X1	and representatives from the DI and DO briefed the National Drug Enforcement Policy Board last Friday on the narcotics threat. The Director was scheduled to brief the board on 24 June, but the session was canceled.
25 <b>X</b> 1	CBW Intelligence Subcommittee:
	<ul> <li>Following the approval of the final CIPC report on CBW intelligence at the 17 June 1985 CIPC meeting, Paul has been fine tuning the report for dissemination to the DCI. The Navy has provided a few recommended</li> </ul>

	TOD SECDET

word changes, primarily for clarification. Most have been accepted and they have been incorporated into the report.

• Although direct and active CIPC staff involvement in CBW matters has ended, Paul will continue to monitor developments and attend Community fora on the subject, possibly to include an OSWR sponsored off-site conference planned for August.

## Soviet Ballistic Missile Defense:

• Rich has been concentrating on the Perry Panel Report and recommendations. He has digested the draft Perry Panel Report and believes that we will be able to incorporate its useful points into the CIPC follow-up report. Moreover, Rich is actively working with the CIPC Working Group in order to develop an initial draft for full Working Group review during the second week in July when both Mel Friedman and Rich will be back from TDY and annual leave, respectively.

	Friedman	and Rich	will	be	back	from	TDY	and	annua l
